COMPANY OVERVIEW

ArcSecureAI LLC is a College Station, Texas-based governance-first technology and advisory firm specializing in AI, cybersecurity, Microsoft technology, enterprise communications, data integration, automation, and workforce enablement. We help government, regulated, education, nonprofit, and commercial organizations adopt AI responsibly, strengthen security and governance, modernize service operations, and prepare people for technology-enabled change.

CORE CAPABILITIES

AI READINESS, COPILOT & GOVERNANCE

AI readiness assessments; use-case discovery; Microsoft 365 Copilot readiness and enablement; AI governance; responsible-use controls; human oversight; adoption roadmaps.

CYBERSECURITY, IDENTITY & ZERO TRUST

Security readiness; Zero Trust alignment; identity and access governance; AI security considerations; policy, risk, awareness, and compliance-readiness support.

MICROSOFT CLOUD & DIGITAL MODERNIZATION

Microsoft 365, Azure, Entra, Teams, SharePoint and OneDrive advisory; collaboration, workflow modernization, automation, and implementation support.

ENTERPRISE COMMUNICATIONS & CONTACT CENTERS

Contact-center architecture and modernization; Cisco enterprise platforms; Genesys Cloud CX migration experience; IVR, routing, integrations, automation, and operational transition.

DATA INTEGRATION, APIS & AUTOMATION

SQL and relational-data integration; REST and platform APIs; Python-enabled automation; automated data collection; reporting, dashboards, and decision support.

TRAINING & WORKFORCE ENABLEMENT

AI literacy; cybersecurity awareness; Microsoft enablement; technical documentation; knowledge transfer; curriculum, internship, and workforce-development support.

HOW ARCSECUREAI HELPS

ASSESS	ARCHITECT	DEPLOY	OPERATIONALIZE
Readiness, use cases, current-state risks, operating constraints, and stakeholder needs.	Secure target state, governance model, workflows, technical controls, and adoption sequence.	Practical AI, automation, Microsoft, security, and operational solutions aligned to approved requirements.	Training, governance, measurement, continuous improvement, and accountable ownership.

WHY ARCSECUREAI

- Microsoft-centered AI, Copilot, Azure, Entra, Microsoft 365, Teams, SharePoint, and OneDrive advisory and enablement.
- Technology + governance perspective spanning AI, cybersecurity, enterprise communications, data, APIs, automation, and workforce adoption.
- Enterprise contact-center depth across Cisco PCCE/UCCE/UCCX, CVP/ICM, CUCM, custom Finesse, complex IVR, and Genesys Cloud CX migration experience.
- Direct executive oversight with transparent distinction between ArcSecureAI corporate experience and prior principal/key-personnel experience.
- Flexible teaming posture for consulting, technical delivery, assessment, modernization, governance, training, and enablement workstreams.
